PROFESSIONAL SUMMARY

B.Tech graduate in Electronics and Communication Engineering with hands-on experience in web application development, database management, and frontend development. Skilled in Angular 19, TypeScript, JavaScript, HTML, CSS, PHP, SQL, and REST API integration. Practical experience includes developing database-driven applications, building responsive user interfaces, and working with Git and Azure DevOps. Also experienced in freelance WordPress website development, with an interest in software engineering and emerging AI tools.

TECHNICAL SKILLS

Frontend Development: Angular 22, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design

Angular: Components, Data Binding, Services, Dependency Injection, Routing and Navigation, Forms and Validation, Angular Material

API Integration: REST APIs, HTTP Client, JSON Data Handling

Programming Languages: Python, PHP, SQL, Java (Basic), C# (Learning)

Databases: MySQL, SQLite

Version Control & Collaboration: Git, GitHub, Azure DevOps

Development Tools: Visual Studio Code, Postman, Chrome DevTools, XAMPP

Software Concepts: Object-Oriented Programming (OOP), SDLC, Debugging, Problem Solving, Agile Development

Design & CMS Tools: Canva, WordPress

EXPERIENCE

Angular Frontend Developer — Intelizest Consulting Pvt. Ltd. (3 August 2026 – Present)

- Develop and maintain frontend components using Angular 19 and TypeScript.
- Work with Angular services, dependency injection, routing, forms and validation, and REST API integration.
- Build responsive interfaces using Angular Material and web technologies; debug using Chrome DevTools.
- Use Git and Azure DevOps in the development workflow.

Web Developer Intern — astTECS (Feb 2025 – July 2025)

Bangalore, India

- Developed and maintained secure web applications using PHP and MySQL.
- Built user authentication modules, including registration and login systems with database integration.
- Implemented backend logic for storing, retrieving, and managing application data.
- Developed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Performed debugging, testing, and optimization to improve application performance and reliability.
- Collaborated with team members throughout the software development lifecycle.

PROJECTS

Hospital Management System | PHP, MySQL, HTML, CSS

- Developed a hospital management application for managing patients, appointments, and doctor schedules.
- Implemented role-based authentication and access control.
- Designed relational database structures for efficient data storage and retrieval.
- Created responsive interfaces to improve usability and user experience.

Web-Based Audio Upload System | PHP, MySQL, HTML, CSS

- Developed a dashboard for uploading and managing audio files with weekend and custom date selection features.
- Implemented backend workflows for file processing and data management.
- Integrated Google Sheets API for data synchronization.
- Designed database modules for storing, tracking, and managing uploaded records.
- Performed testing and debugging to support reliable application performance.

FREELANCE PROJECTS

Chit Fund Company Website — WordPress

Built and customized a responsive business website with company information, contact forms, and product listings. Website: https://janasnehichits.com/

Steel Detailing Company Website — WordPress

Built and customized a responsive business website with company information, project details, contact forms, and service listings. Website: https://avystructuralsteel.com/

EDUCATION

B.Tech in Electronics and Communication Engineering — CGPA: 7.21/10
Sree Rama Engineering College, Tirupati, India | Nov 2021 – Jun 2025
Intermediate in MPC — 818/1000
Sri Chaithanya Junior College, Tirupati, India | Nov 2019 – Jun 2021
SSC — CGPA: 9.7/10
Vijaya Bharathi High School, Tirupati, India | 2019
